

FUN FOR YOU & CHILD

TIPS FOR TODDLERS

The “Real” Stuff:

Toddlers are eager to be like you, using the phone, cooking and more. Engage them with make-believe phones (a small calculator), old dishes, dress-up clothes, musical instruments, brushes and dust pans.

Quick Water Art:

Fill small bowl with water and take outside with paint brush. Create hearts or other shapes in the sun.

Quote Keepsake:

Kids say the funniest things. Keep a collection of those priceless words along with photos in a homemade quote book.

I like to move it, move it:

As they grow, children are learning new ways to move- hopping, skipping, rolling. Make use of their energy and enthusiasm and build an obstacle course with box tunnels, hoola hoops, step stools and a hopscotch game finish.
